

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

AGRICULTURAL STATISTICS

(From the United States Census Report)

Maine has a total land area of 29,895 square miles, of which 9,844 square miles, or 32.9% are included in farms. The surface consists of two great slopes, the northern and the southern. The northern slope, comprising about one-third of the total area is drained by the St. John river and its tributaries, the southern slope by numerous streams which flow into the Atlantic. The broad, flat divide which separates the two slopes serves as a natural reservoir, most of the rivers of the state having their sources in the large lakes of this region. Some of the lakes have outlets on both sides of the watershed.

The surface of a large part of the state is rugged and broken. The soil of the river valleys is very productive, but in the mountainous regions and along the sea coast it is for the most part sterile. The Aroostook Valley, which comprises the largest area of fertile farming land in New England, has a deep, porous, yellow loam, especially adapted to the growing of fruits and vegetables. This section has developed remarkably during the last decade.

Census-1905

The population of the Towns of Wayne, Wales, Leeds Greene and Monmouth has been arranged in families where that arrangement has been possible. In these families, in addition to the resident living members, the names of the non-resident members are included. It should be borne in mind that this plan does not include the names of all former residents of this town, as the names of the non-residents appear only when one or both of the parents are still living in the town. After the name of each non-resident will be found the present address, when such address has been given to us. Non-residents are indicated by the (*).

When a daughter in a family has married, her name taken in marriage appears after her given name in parenthesis, the name preceded by a small m, thus: (m).

Following the names of the population is the occupations. To designate these we have used the more common abbreviations and contractions, as follows: Farmer—far; carpenter—car; railroad service—R R ser; student, a member of an advanced institution of learning—stu; pupil, a member of a lower grade of schools (including all who have reached the age of five years)—pl; housework—ho; laborer—lab; physician and surgeon—phy & sur; clergyman—clerg; merchant—mer; teacher—tr; blacksmith—blk; clerk—cl; book-keeper—bk kpr; lawyer—law; mechanic—mech; machinist—mach; engineer—eng; maker—mkr; worker—wkr; work—wk; shoe shop work—shoe op; cotton or woolen mill operatives—mill op; weaver—weav; spinner—spin; electrician—elec; painter—ptr; carriage work—car wk; dress maker—dr mkr; insurance—ins; traveling salesman, or commercial traveler—sales, or coml trav; music teacher—mus tr; teamster—team; general work—genl wk; mariner—mar; employ—emp; retired—ret'd; scythe shop—sy. shp.

This census was taken expressly for this work during the Summer of 1905, by John M. Gott.

Census of Wayne 1905.

NOTE.—The following abbreviations of Post Office addresses have been used in the census of Wayne: North Wayne—North; North Leeds—No. Lds.; R. F. D. 25 Wayne—No. 25; Winthrop R. F. D. No. 23—Win. 23; Winthrop R. F. D. No. 24—Win. 24; Monmouth R. F. D. No. 20—Mon. 20. Where no address is given, Wayne, Me. is understood.

A LETTER

BATH, ME., JUNE 23, 1902.

DR. FISKE: Dear Sir:—This is to certify that I was suffering with a very bad fistula and that I had employed the best of physicians without getting any relief. After standing their torture for a long time they told me I must go to the hospital and be cut. I did not like that. I thought I had suffered about all I could stand. I learned of Dr. FISKE and went to see him: he told me very quickly what he could do. He went right to work on my case and in a very short time I was entirely well. My fistula was gone—healed up solid and nice. I am as well as ever thanks to Dr. Fiske and his wonderful method of treating fistula, and let me say right here that he did not rob me either. His prices are moderate and his terms are within the reach of all. I would heartily recommend the doctor to all people suffering as I did. You will find him a gentleman to deal with. If he cannot cure you he will tell you. I will gladly answer all letters concerning my case.

Respectfully yours,

GEORGE A. COOMBS

418 Front St., BATH, ME.

Those having trouble with fistula should consult Dr. Fiske.

Remember that Dr. Fiske guarantees a cure in every case or no pay.
